

Revolutionize your workflow with Pulse[®] —powered by Covetrus[®] AI

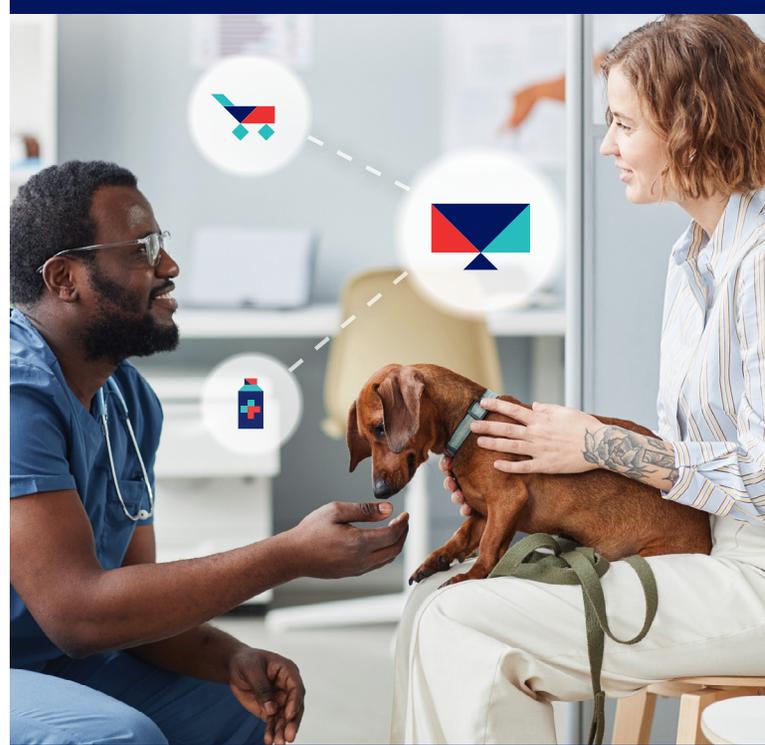

Artificial Intelligence (AI) is transforming the way veterinary teams provide patient care and support their clients. Covetrus AI enhances efficiency and lets you focus on delivering exceptional care—*all at no extra cost.*

What can Covetrus AI do for you?

- ✓ **Save time.** Get back **6 hours per week, per veterinarian.***
- ✓ **Enhance workflow.** Covetrus AI generates pre-appointment summaries based on PIMS data, helping staff prepare for visits.
- ✓ **Increase efficiency.** Ambient Listening, an AI-powered transcription, captures conversations during appointments and auto-generates SOAP notes.

Covetrus AI helps you reduce administrative workload, lower staff burnout, strengthen client engagement, and grow your practice.

*On average, according to Covetrus internal data, 2025.

Streamline every clinic touchpoint with Pulse

At the heart of the Covetrus Platform, Pulse integrates your software into a unified, cloud-based environment for a connected experience.
